

***Sphaerodactylus elegans* (Ashy Sphaero).**
Distribution.

Date of observation: 19 July 2010. Location: Haiti: Sud; 3 km N Port Salut. Coordinates: 18.10913, -73.94302. Elevation: 9 m. Voucher: image. Unpatterned adults of this species were seen active on the wall of a hotel at night, around lights. The species is known from throughout the Tiburon peninsula of Haiti and therefore this locality record is not unexpected. Accompanied by Richard Thomas. Thanks to Philippe Bayard and the Audubon Society of Haiti.
